

OFRI ROZNER

DATA ANALYST | DATA SCIENCE, ML & DATA QUALITY

Tel Aviv, Israel • 050-743-3539 • ofri.rozner@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Early-career data analyst with a B.Sc. in Cognitive Neuroscience, a B.A. in Psychology and hands-on training in data science and machine learning. Builds reproducible Python and SQL workflows that turn complex multi-site or transactional data into validated, decision-ready datasets. Brings structured documentation, program coordination and experience working with autistic participants. Native Hebrew; fluent English.

CORE SKILLS

Data & Analytics: SQL (PostgreSQL, dbt), Python (pandas, NumPy, matplotlib), EDA, data validation, cohort analysis, feature engineering, statistical analysis

ML & Evaluation: scikit-learn, XGBoost, temporal validation, imbalanced data, threshold analysis, SHAP

Tools: Docker, Git, Linux, Streamlit, Tableau, Excel

SELECTED DATA PROJECTS

Fraud Detection & Dataset Quality Analysis | Python, pandas, XGBoost, SHAP • [GitHub](#)

- Rebuilt a fraud-detection workflow for 2M+ transactions to prevent temporal leakage, using chronological splits, strict-past velocity features and train-only preprocessing.
- Achieved PR-AUC of 0.954 on a chronologically held-out test set; a validation-locked threshold captured 99.18% of fraud at 18.19% precision while flagging 1.77% of transactions for review.

Neuroimaging Cohort Quality Builder | SQL, PostgreSQL, dbt, Docker, Streamlit • [GitHub](#)

- Built a reproducible quality pipeline for 1,112 multi-site ABIDE I participant records, with missing-value normalization, auditable eligibility rules and raw-to-mart lineage.
- Automated 37 dbt quality tests and site-held-out evaluation; identified 0% evaluation coverage for key behavioral measures, preventing behavioral-enrichment analysis.

AI Crypto Trading Data Pipeline - Team Project | Python, CatBoost, XGBoost • [GitHub](#)

- Co-developed a real-time, multi-asset data pipeline across five assets and five timeframes, producing 90+ technical indicators; contributed time-series evaluation, model reporting, signal filtering, configuration and testing.

PROFESSIONAL EXPERIENCE

After-school Program Leader | IACC • Tel Aviv • 2025-Present

- Own daily planning and execution for a structured program serving autistic participants, coordinating staff priorities, documentation and real-time issue resolution.
- Monitor participant needs and operational risks, adapt plans and communicate with relevant stakeholders to maintain a safe, consistent environment.

Rehabilitation Instructor | Chimes Israel • Tel Aviv • 2024-2025

- Delivered individualized rehabilitation and life-skills support for children with developmental disabilities; documented progress and translated professional plans into daily practice.

Rehabilitation Instructor | Slav and Sons Ltd. • Israel • 2020-2022

- Implemented structured intervention plans and maintained accurate documentation for youth with autism spectrum disorder.

Field Medic | Israel Defense Forces • Israel • 2013-2016

- Delivered medical support and maintained accurate records in high-pressure settings while following strict operational procedures.

EDUCATION

Data Science Certificate Program | Bar-Ilan University • 2025-2026

Coursework: SQL, statistics, machine learning, deep learning, neural networks and generative AI.

B.Sc. Cognitive Neuroscience & B.A. Psychology | Ben-Gurion University • 2018-2022

Coursework: computational modeling, neural data analysis and multivariate statistics.
